

CRUISE CONTROL

# ENJOY CRUISING SAFELY

## Cruise Control

### EASY TO USE

Accelerate to desired speed and set that speed

### CRUISE WITH CONFIDENCE

Maintains a constant speed during long trips

### COST EFFECTIVE

Increases fuel economy by regulating your speed

Cruise in comfort with constant speed during long trips.

# CRUISE CONTROL

Take the stress away from driving long trips with a cruise control system that maintains your speed for a comfortable drive. Cruise control systems can help reduce the chance of a speeding fine by eliminating speed creeping. The cruise control system increases the fuel economy of your car as it maintains speed.

## PRODUCT FEATURES

- This system can help increase fuel economy by regulating your speed for a smoother drive, and on those longer trips, stop unintentional speed creeping.
- Designed to be easy-to-use, and promote safety and driver comfort and constantly monitors road speed and adjusts accordingly.
- Improved fuel economy as throttle adjustments are minimal.
- OEM Style Stalk switch for factory appearance.
- Safer driving due to the driver being free to concentrate on road conditions rather than constantly monitor speed.
- Fits neatly into the Left or Right hand side of the steering column (vehicle dependent).
- Suitable for four wheel drives, light commercials, and turbo-charged vehicles.
- Suitable for EFT, Carburettor and Diesel engines.
- Suitable for both Automatic & Manual transmissions.
- Fully integrated drive-by-wire Cruise Control System.
- Professionally installed by a trained technician.
- Comes with a 3 year nationwide warranty\*.
