# PIONEER 6.8" CARPLAY SYSTEM

Stay connected and entertained on every drive with the Pioneer 6.8" Touchscreen Media Player. Boasting a host of entertainment options including Spotify®, USB/FM/AM, and even Bluetooth® music streaming, this is a valuable addition to your car. It also is compatible with Apple CarPlay™, Android Auto™, Bluetooth® and options for dual camera inputs.

## PRODUCT FEATURES

Large 6.8" Touchscreen

Small and discreet reverse camera (optional)

- Apple CarPlay™ & Android Auto™ compatible via cable connection.
- Apple CarPlay™ brings your apps to life all through the display. Listen to your favourite music apps such as Spotify®, make calls, get directions with maps, receive messages and see your calendar all while using the display or voice control.
- Android Auto™ lets you bring the ever-expanding apps into the dash of your car. From either the display or voice command you can make calls, send and receive messages, play music apps or set a destination via Google Maps or Waze.
- Dual Phone connection allows you to simultaneously connect and control 2 smartphones via Bluetooth®. No need to keep changing paired devices over each time you get a call.
- Dual camera inputs allow both reverse and/or front parking cameras (both optional)\* for improved safety (visibility of hazards) and peace of mind, particularly when parking your vehicle or towing.
- Professionally installed by a trained technician.
- Comes with a 3 year nationwide warranty†.

### Reverse Camera (Optional)

- Features automatic display brightness adjustment, providing excellent picture quality in strong sunlight.
- Optional guidance lines on camera image to help with tight spaces.
- Professionally installed by a trained technician.
- Comes with a 3 year nationwide warranty†.
