

SAFETY SYSTEMS

SAFE BRAKING AT YOUR FINGERTIPS

RedArc Tow Pro Elite V3

SMOOTH BRAKING RESPONSE

For motorists towing heavy trailers and caravans

SAFE AND COMPLIANT

The unit is ADR compliant when professionally installed

SMART BRAKING TECHNOLOGY

Automatically adapts to electric and electric/hydraulic trailer brakes

The only brake controller to offer both automatic and user controlled braking.

REDARC TOW PRO ELITE V3

Electronic Brake Controller

This next generation Tow-Pro Elite Electric Brake Controller sets the benchmark in trailer braking. No other electric trailer brake controller on the market can match Tow-Pro Elite V3. Simple to operate, it continues to be the only brake controller to offer two types of braking: automatic mode (inertia or proportional braking) for highway conditions and user-controlled mode for off-road.

PRODUCT FEATURES

12 or 24 volt compatible

LED illuminated dial shows you the status of the Electronic Brakes at a glance.

Blue LED - Proportional
Trailer brakes are applied proportional to the vehicle. The harder you brake, the harder the trailer brakes.

Green LED - User-Controlled
Trailer brakes will be applied at the level set. 0 is no trailer braking, 10 is full trailer braking.

Red LED - Brakes Applied
Braking force is indicated by the LED changing to different shades of red when the brakes are applied.

- The Tow-Pro series have become Australia's most popular Electric Brake Controller.
- Easy-to-use, safe braking on caravans, trailers, camper trailers and boat trailers.
- Work with electric and electric/hydraulic trailer brakes.
- AL-KO ESC and Dexter Sway Control System compatible.
- LED Control Dial can be seamlessly mounted in a blank switch panel, an unused area of the dashboard or centre console.
- Avoids intrusion of traditional brake controllers into the driver's leg space and potential interference with lower airbags in newer vehicles.
- Smooth trailer braking response for motorists towing heavy trailers and caravans.
- Operates in temperatures from -20°C to 60°C.
- Professionally installed by a trained technician.
- Comes with 3 year nationwide warranty*.
