DISCREET DESIGN

Light-weight, sleek design means it's discreetly fitted to your vehicles bumper

Assist in avoiding wildlife collision.

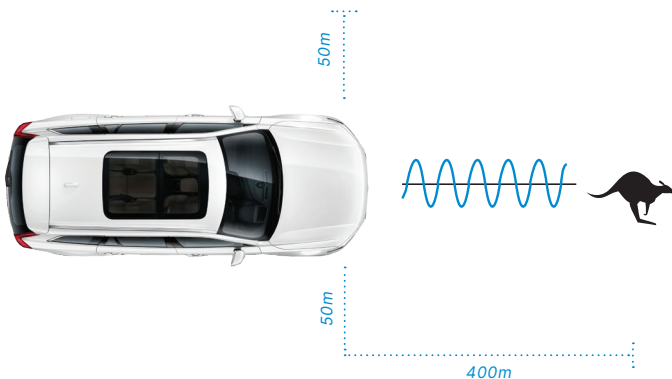

SHUROO ANIMAL DETERRENT

ShuRoo creates a unique high-frequency sound that is silent to humans but creates an extremely loud police siren type of alert to kangaroos. Any kangaroo in the ShuRoo range will be alerted to your approach and likely move in the opposite direction, or simply stay put where it is and watch you safely drive by. ShuRoo works to improve the awareness of both driver and animal to help avoid collisions or to help avoid accidents caused by sudden, uncontrolled swerving.

PRODUCT FEATURES

Comprehensive coverage

Helps reduce chance of collision

- Emits a unique pattern of high-frequency sound that can't be heard by humans but creates an extremely loud police siren type of alert to wildlife.
- Alerts wildlife of your presence up to 400 metres ahead and up to 50 metres either side of your car.
- Gives animals plenty of time to get out of the way, helping to reduce the road toll of our native wildlife.
- Works day and night, rain or shine with 24-7 protection.
- Withstands the toughest of driving environments. Insects, dirt and weather will not affect ShuRoo's performance.
- Designed Aussie-tough for the harshest conditions.
- Helps protect drivers and passengers from injury, avoiding downtime losses and costly insurance claims.
- It's light-weight, sleek design means it sits discreetly within your front bumper.
- Helps dramatically reduce the chance of a collision, and your car being written off.
- Professionally installed by a trained technician.
- Comes with a 3 year nationwide warranty*.
