

WITHCLOUD SET UP

For connecting your dash camera (BYO Data) via the withCloud service..

CREATING A GNET WITHCLOUD® ACCOUNT

STEP 1

Using your chosen App Store, search and install the withCloud App.

STEP 2

Once installed, open the app and click on the **Profile Icon**  located in the top-right.

STEP 3

Click the **'Sign Up'** link and follow the prompts to create a new account. Be sure to use a valid email address as a verification link will be sent via email.

STEP 4

Open your emails and follow the user registration link sent to you. This link will expire after one day if not used. You'll now be able to select a password for your account.

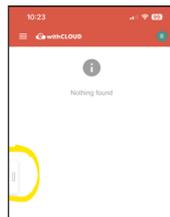

REGISTERING YOUR DASH CAMERA

STEP 1

Once logged into the withCloud App, **click the menu button**  located in the top left corner.

STEP 2

Under the Management heading, **click Vehicle Management**. Once on this page, on the left hand side of your screen in the middle will be a small **"pull out tab"** styled menu. **Click this button.**

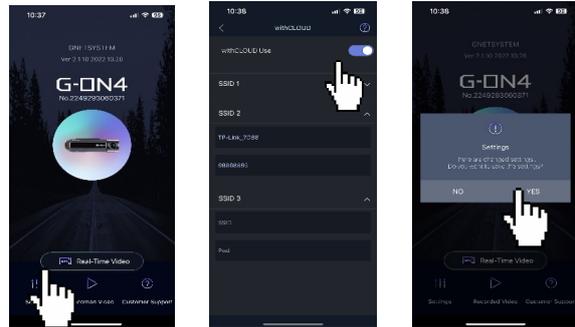

STEP 3

Click **Add Vehicle**, and enter your vehicle details and the **Serial Number** of your dash camera.

SELECTING WHICH HOTSPOT TO CONNECT TO ON DASH CAMERA

STEP 1

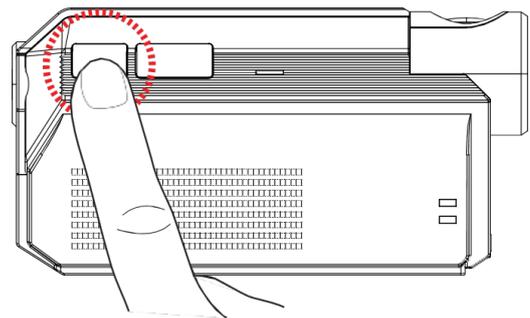

Using the previous dash camera **'Quick Start Guide'** follow the steps as outlined to connect via Wi-Fi to your dash camera. Once connected click **Settings > withCloud > Enter** in your chosen Wi-Fi hotspot and **Save Settings**.

SWITCHING THE DASH CAMERA FROM WIFI MODE TO CLOUD MODE

STEP 1

Press and hold down the WiFi button on the dash camera until you hear a bell chime. You'll hear the phrase **"Changing to Cloud Mode"**.

STEP 2

Your camera may take a few seconds to connect to the cloud. Once successful you'll hear the prompt **"Connected to Cloud"**. You may then start using the withCloud app.

Please refer to your User Manual for more in depth information.
